

Fike SHP-PRO™

CONVENTIONAL RELEASING PANEL

LOOKING FOR THE **WORKHORSE** THAT CAN DO IT ALL?

SHP-PRO:

- A conventional fire suppression releasing panel
- Adaptable to any industry and various applications
- Compliant with UL864 Standard
- Easy Installation

ONE SHP-PRO PANEL = MANY APPLICATIONS:

- Clean Agent for high value asset protection only
- Sprinkler Pre-Action/Deluge for protection of building structure only
- Controls **BOTH** sprinkler Pre-Action/Deluge & Clean Agent systems
- **Complete Protection using one panel!**
- Industrial applications including CO₂, Waterdeluge, Foam, and **Now able to control Micromist**, for protection of machinery, liquid storage, etc.

SHP-PRO Applications

Industrial Application with SHP-PRO and CO₂ protecting a dust collector.

High Value Asset Application with SHP-PRO and clean agent (ECA RO-25 or HFC-227ea) protecting a Telecommunications Switch Room.
